 - Regulatory Updates
 - STC Planning: Beyond Avionics
- 
- A decorative graphic on the right side of the slide. It features a series of light gray rectangular bars arranged in a curved, upward-sloping pattern. Below these bars is a large, stylized starburst or sunburst shape composed of several triangular segments in a light orange or tan color, radiating from a central point.

Delegates Committee Update

3rd Annual Delegates Conference completed at convention in March

Working to expand conference to include more training through out the week

Two delegate seminars this year – at all regionals next year

Development of Website with more resources

Delegates Committee Update

Training Program

- Actively developing Aircraft Certification Speciality Course
- Developing training plan for each speciality
- Working with partners to prepare and deliver technical training
- Potential for certificate programs to be introduced
- Working with TCCA and FAA to gain recognition if not approval of the AEA training program

Mentorship Program

- Mentor Guide, plan and evaluation tools
- Mentoree tracking forms, objective

ADS-B

Regulatory Updates

AMA 500/00 N Revision

- Update legacy references to the Joint Aviation Authorities (JAA) and replace them with the European Union Aviation Safety Agency (EASA);
- Remove legacy references to cancelled SI GEN-001 and GEN-002;
- Update Appendix A on active AMAs;
- Update Appendix B on cancelled AMAs and their replacement guidance;
- Update the FAA AC exclusion list in Appendix C to specifically exclude AC 20-158B and instead use the CMT paper (CATA) CWI TCCA-001 for High Intensity Radiated Field (HIRF).

Regulatory Updates

AWM Updates

- Revisions to AWM 523, 525, 527, 529, 533, 537, 551
 - Issued to harmonize with FAA
 - Except 551 – issued for update to ADS-B equipment

Guidance Updates

- SI 521-011 Foreign Aeronautical Products
- SI 516-001 Criterion for Selection of ICAO Annex 16 Content for Incorporation in Chapter 516 of the Airworthiness Manual

Regulatory Updates

Electronic Conspicuity Working Group

- New technologies to allow the transmission of aircraft position (FLARM)
- How will TCCA approach EC with the potential of RPAS and AAM

5G

- CASA 2025-06 issued to address recent updates on the 5G issue
- FAA AD's meet Canadian requirements
- Strongly recommending to install 5G tolerant system
- Jan 1, 2026 spectrum mitigations are to be removed
- Currently no broad mandate other than the AD's

Regulatory Updates

Delegate Conference

- In conjunction with AIAC's Aerospace Summit
- October 28th-29th

Roadmap for AAM

- TCCA issued a joint roadmap on AAM certification with the FA, UK CAA, CASA and NZCAA
- Commits to harmonized design requirements
