

NIGHTHAWK FLIGHT SYSTEMS, INC.

***The Next Generation
Of Affordable Cockpit Displays And Systems***

Nighthawk Flight Systems, Inc

- *We Manufacture Advanced Cockpit Avionics For All Fixed And Rotary-wing Aircraft*
- *We Are A Leader In:*
 - *Advanced Primary Flight Displays and Avionics*
 - *Our unique “Smart I/O” enables easy integration with existing aircraft systems*
 - *Advanced “Terrain Awareness And Warning Systems” for Fixed and Rotary Wing Aircraft*
 - *TAWS for fixed wing*
 - *HeliTAWS® for rotary wing*
 - *“Wire Watch” – Database of major transmission lines for wire awareness*
 - *Obstacles presented as defined points, not as an alert across a broad area*
 - *Pilot selectable modes. Enables flight in “off-airport” locations without nuisance alerts*
 - *Offshore Modes to support oil/wind turbine ocean-based operations – FAA Certified.*
 - *“Stand Alone” display replaces standard RADALT and performs that function*

NIGHTHAWK GUARDIAN SYSTEM

Exceptional Display and Computing Technology with Revolutionary Graphics

- *“Real World” Synthetic Vision*
 - *Digital twin of Entire Earth is created*
 - *We incorporate all available and appropriate digital data*
- *Controlled Flight Into Terrain (CFIT) is Number One cause of accidents in general aviation – our world class situation awareness will dramatically improve flight safety*

Affordable

- *Up to 30% Lower Cost than Comparable Systems*
- *Highly Proprietary Technology enables lower cost, lighter weight and more capability than any comparable system*

Modular, Flexible Design

- *Up to 50% Lighter Weight than Comparable Systems*
- *Customer buys just what he wants, no more; can add capability when desired*
- *Easy installation, anywhere in aircraft, easy maintenance*
- *Size, Weight, Power advantages very attractive to helicopter and eVTOL/eCTOL customers*

Smart Input/Output

- *Unique, proprietary I/O enables easy integration with existing aircraft systems*

7 Inch MFD Available Q1 2026

Nighthawk Guardian Basic System

- **Mission Computing Unit (MCU) Blade**
 - Graphics & User Interface processing
 - Supports two independent displays
 - Digital Twin Synthetic Vision
 - Fixed/Rotary Wing TAWS
 - TCAS, FIS-B Weather and ADS-B In traffic display (Available Q1 2026)
 - Audio Annunciation
 - WiFi / Bluetooth Enabled
 - Integrates with Tablet Planners (Available Q2 2026)
 - Standby Battery Interface / Control
- **Smart I/O (SIO) Blade**
 - Programmable interface to existing aircraft systems
 - Integrates with External Transponder
 - Integrates with Engine instruments (Available Q1 2026)
 - Integrates with External GPS Navigator
- **ADAHRS Blade**
 - Air Data Computer
 - Attitude/Heading Reference System

The Nighthawk Guardian System

List Price \$39,900

*Available December 2025
Part 23 Class I/II, Part 22, Experimental*

Nighthawk

Confidential

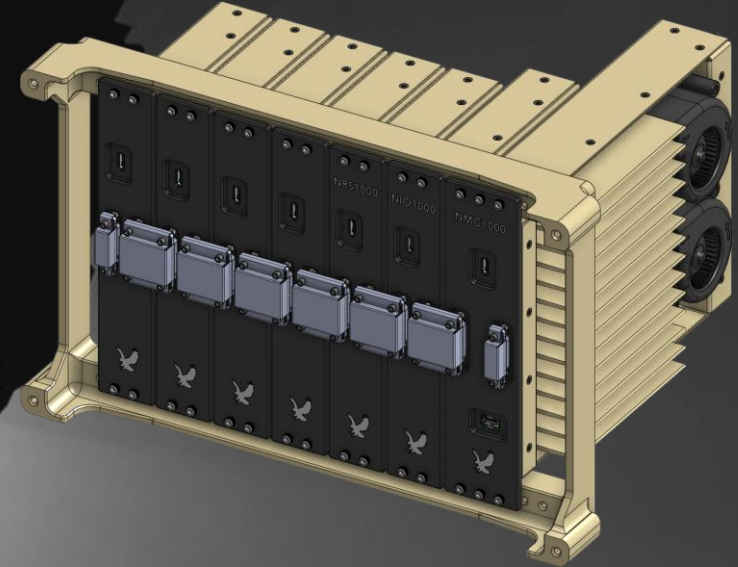

Nighthawk Guardian Full System

- **Basic System**
 - *Mission Computing Unit (MCU) Blade*
 - *Smart I/O (SIO) Blade*
- **Plus**
 - *Aircraft Navigation Unit (ANU) Blade Includes:*
 - *Air Data Computer*
 - *Attitude/Heading Reference System*
 - *Integrated Certified GPS/WAAS Navigator*
 - *ILS/NAV*
 - *COM*
 - *Transponder*

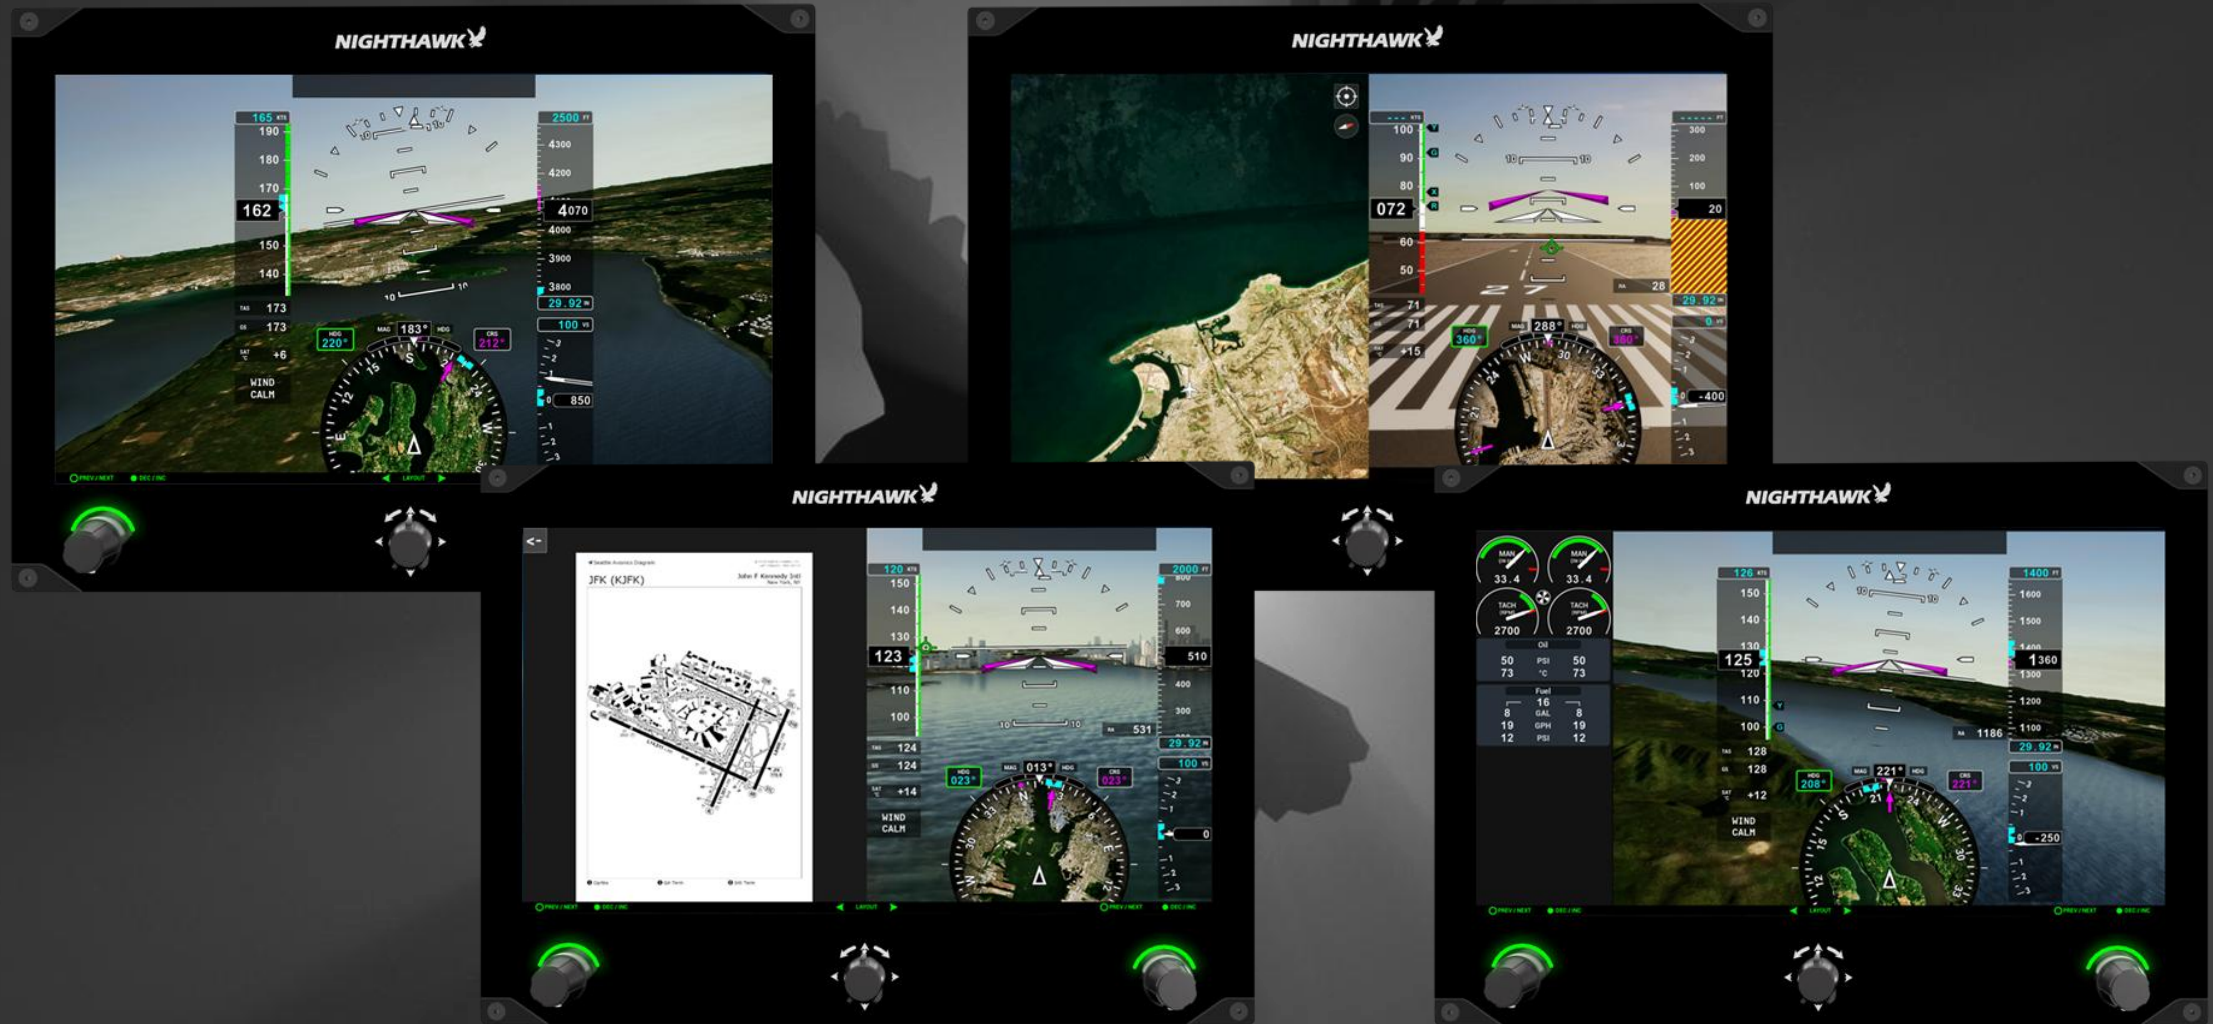

The Guardian NEST

- *NEST is Independent from the display*
 - *One NEST supports two independent displays*
 - *Displays connect to the NEST via a single cable*
 - *Cable includes data and power*
- *Mount Anywhere in aircraft – up to 25 feet from display*
 - *Nose, Tail, Subfloor,*
 - *Avionics Bay,*
 - *Behind Panel*
- *Each “Blade” provides individual function and is connected to each through “Blade Link” for fully integrated system*
- *Blades Include:*
 - *MCU*
 - *ANU*
 - *Smart I/O*
 - *VHF COM*
 - *VHF NAV*
 - *GPS NAV*
 - *ADS-B In/Out Transponder*
 - *CPDLC*

GUARDIAN 11.6 INCH PFD/MFD

Nighthawk

Confidential

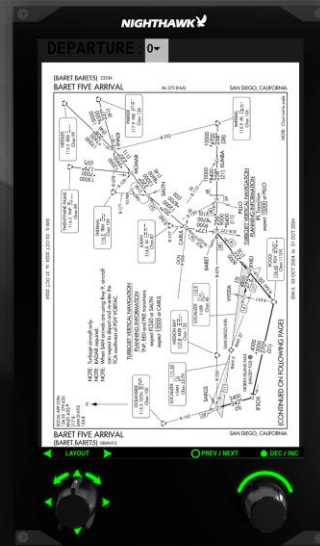

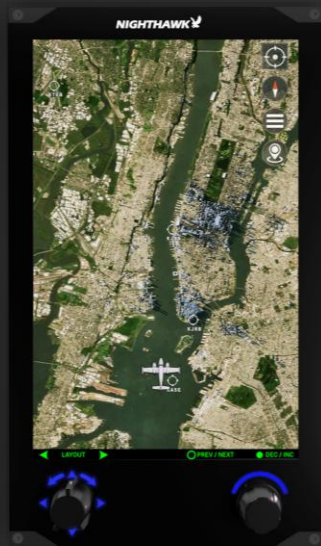

Guardian Optional 7-Inch Second Display

Available Q1 2026

- 7 Inch Viewable Area
 - 1920 x 1080 Full HD
 - Portrait or Landscape
 - Full PFD/MFD Capability
 - Sunlight Readable 1600 nits
 - Surface Mount
 - PCAP Multipoint Touch
 - Integrated Tactile Controls
 - Single Cable Interface

GUARDIAN 7 INCH PFD/MFD

USB-C Data/Charge Port

- *Dual 45W USB-C Charging Ports*
- *One USB 3.1 10Gbps Data Port*
 - *Software Updates (Foundries)*
 - *Database Updates*
- *iX-Industrial Key-B Cable to NMC1000 Mission Computer*
- *Threaded Collar Mount to Dashboard or Sidewall*

Nighthawk Guardian System Cost/Weight

FAA Fixed Wing Part 23, Class I/II
Available for Delivery December 2025

Nighthawk Guardian

- 11.6-inch Primary Display (w/ ADAHRS)
- Second Optional 11.6-inch MFD
- NEST™ With:
 - Install Kit/Wiring
 - MCU (Mission Computer)
 - AD/AHRS
 - Smart I/O
 - TAWS (Uncertified)
 - Charts, Maps, Radar/Video In
 - Integrates with:
 - Garmin or Avidyne GPS
 - Analog Auto-Pilots
 - Other Aircraft Systems

• Integrated Transponder	\$ TBD	1.0
• Integrates with Analog or Digital Auto-Pilots and other aircraft systems		
• Second Primary Display (7 or 11.6 inch)	\$ 33,200	4.7
• Fourth Optional Display (7 or 11.6 inch)	\$ 6,700	2.0
• Second NEST™ With:		1.3
• MCU/ADAHRS/Smart I/O	\$ INC	2.8
	\$ TBD	25.1 #
• TAWS Class B Certified Enabled	\$ 6,700	

Guardian Four Displays with Two NEST Systems, all LRU's

WHY Nighthawk Guardian?

- ***Best, Most Realistic Graphics in Industry***
- ***Most Capable at Lowest Cost***
- ***Enhanced Safety***
 - ***Better situation awareness, flight and ground environment presented in clear, high-definition displays with advanced graphics***
 - ***Controlled Flight Into Terrain (CFIT) is Number One cause of accidents in Gen Aviation***
 - ***Reduced pilot workload – Information is prioritized - Pilot sees what he needs to see***
- ***Light Weight, Easy to install, Easy to Upgrade***
 - ***System adapts to customer budget/requirement***
 - ***Advanced Input/Output technology enables integration with existing aircraft systems and sensors***
 - ***Customer can enhance your investment, rather than replace it***
- ***Flexible display data options (FLIR, Camera, Sensors, any video input)***
