

Skywire Studio

What is *SkyWire* Studio?

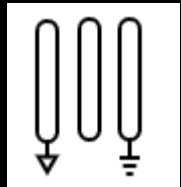

*Sky*wire studio

- Cloud-based avionics wiring CAD software
- Templates & automation enable users to create professional diagrams in half the time or less compared to other methods
- **Free** to use for everyone
- Paid subscription provides access to automation, templates & other advanced features

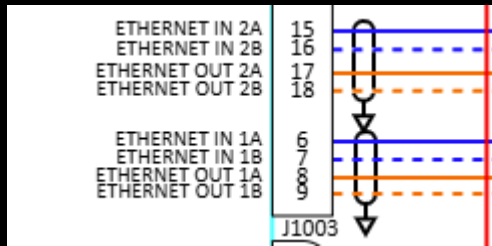

Intuitive & Easy to Use

- SkyWire Studio has been designed from the ground up to be easy & intuitive to use

**Snap-to-fit
shield symbol
placement**

**Wire color
coding for
easy
reference**

A BONDING STRAP NEEDS TO BE CONNECTED TO THE BACKSHELL OF THE G5 CONNECTOR TO A #10 GROUND STUD.

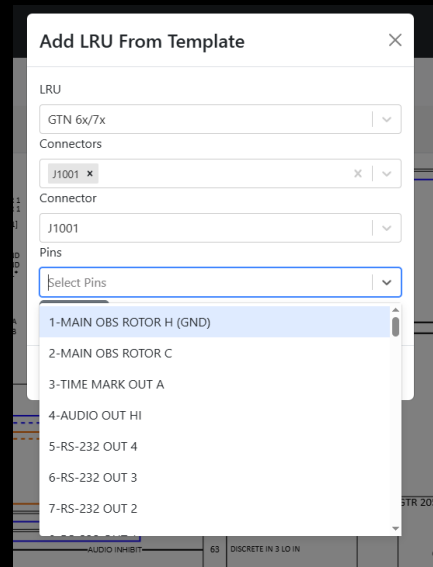

THE G5 POWER GROUND MUST BE INDEPENDENT FROM THE POWER GROUND USED BY THE RATE OF TURN INDICATOR IF THE RATE OF TURN IS RELIANT ON ELECTRICAL POWER.

THE GTP59 HAS A 10 FOOT LONG PRE-INSTALLED LEAD. IF THIS IS NOT LONG ENOUGH TO REACH THE GAD13 THEN

**Automatically
managed
annotation
table**

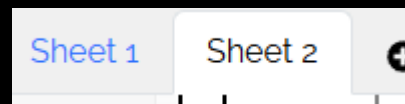

**Templating
for quickly
building up
connectors &
pins**

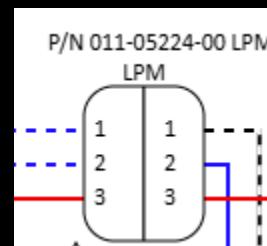

**Automatic title block
fields with editable
approval fields**
