Agenda

4

TT23G and TT23 Transponders

TRIG
A DYNON Company

5

- TT23G Key Features
 - Remote mount transponder
 - Smaller
 - Lighter
 - Built-in GPS receiver for ADS-B Out
- TT23 non-GPS version

TT23G Transponder

TRIG
A DYNON Company

6

- Control head and remote transponder
 - Same controller as TT21/TT22
- Full Class 1 Mode S transponder
 - 250 W nominal power
 - High efficiency – low current draw
 - Altitude encoder in control head

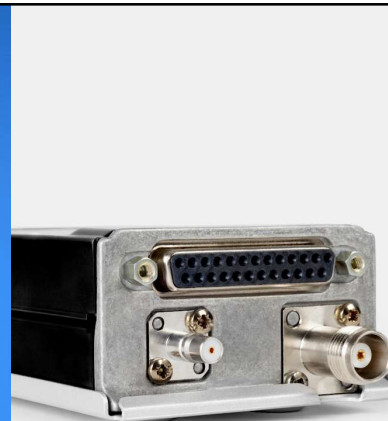

Technical Features

TRIG
A DYNON Company

7

- TT23G internal GPS
 - uses any aviation GPS antenna
 - Trig QMA connector
- Meets European requirements
 - Optional ADS-B equipage
 - CS-STAN applies
- Meets US 91.227 requirements
 - Experimental/Light Sport

TT23G ADS-B Features

TRIG
A DYNON Company

8

- TT23G and TT23 are ETSO certified
 - ETSO-C112e Class 1 Level 2els
 - ETSO-C166b A3 Class B1S
 - ETSO-C199 (TT23G only)
- Install under CS-STAN
- STC in progress
 - TT23 third party GPS support

TT23G Certification

TRIG
A DYNON Company

9

- Backwards compatible with TT22
 - Same control interface
 - Same wiring harness
 - Same mounting holes
 - Tray is physically smaller
- Controller interoperable
 - May need software update
 - Trig TC20 version 1.16 supports TT23

TT23G Compatibility

TRIG
A DYNON Company

10

- Controller fits in standard 2 ¼ inch (57 mm) hole
 - Or ultra-compact Trig mounting
- Transponder runs on 11 to 33 volts
 - Standard 14 volt or 28 volt electrical system
 - 12 volt battery power (gliders, non-electrical aircraft)
- Transponder is certified to 70,000 feet
 - TC20 controller only reports altitude to 40,000 feet

More technical summary items

11

- GPS Antenna
 - Trig TA70 recommended
 - Trig TA50 for ultralights and gliders
 - Compatible with most aviation antennas
 - QMA connector
- Transponder Antenna
 - Conventional blade or stick
 - TNC connector on transponder

Antenna Compatibility

12

- TT23G and TT23 are in stock
 - Available to order now

Availability

TRIG
A DYNON Company

13

- TT21 and TT22
 - Still available for programs that need them
 - Still supported
- TT22 price maintained
- TT21 small price increase

TT21 and TT22 Transponder

TRIG
A DYNON Company

14

Dynon Skyview HDX in Europe

TRIG
A DYNON Company

15

16

- Skyview HDX
 - Experimental/Homebuilt Aircraft
 - Powerful ecosystem
 - Primary Flight Display
 - Multi-function Display
 - Engine Management
 - Autopilot
- Dynon Certified
 - Based on same core platforms
 - FAA STC AML for most Part 23 aircraft

Main Product Features

TRIG
A DYNON Company

17

Product set

TRIG
A DYNON Company

18

- Sales and Distribution from Amersfoort
 - Euro pricing
 - EU shipping
- European Support
- FAA STC validation with EASA
 - In process

European Perspective

TRIG
A DYNON Company

19

- 10-inch screen
- Backup screen
- ADAHARS
- Magnetometer
- OAT probe
- GPS source
- Batteries
- Harnesses

Entry Level System

TRIG
A DYNON Company

20

- Skyview is a system
 - Entry level
 - Add EMS
 - Add Comm, Nav, Surveillance
 - Add Autopilot
- Installer opportunities
 - Add significant capability to your shop
- We are growing our European installer network
 - Do you have what it takes?
