

GARMIN®

AVIATION TRAINING

FlyGarmin Administration

What FlyGarmin users and service centers really need to know

Garmin Aviation Training is intended to provide the best practices for the installation, use and maintenance of Garmin Aviation products. It is incumbent on technicians and pilots to ensure that the instructions contained in the most recent versions of Garmin product manuals, bulletins and notifications are followed.

© GARMIN LTD. OR ITS SUBSIDIARIES. ALL RIGHTS RESERVED.

Objectives

Monday, March 30, 2026

- ✈ For Dealers:
 - ✈ Adding New Users to FlyGarmin
 - ✈ Adding GDL 60 to your Customer's FlyGarmin
- ✈ For Service Centers:
 - ✈ Managing Customer's Accounts
 - ✈ Linking accounts and managing who has access to what

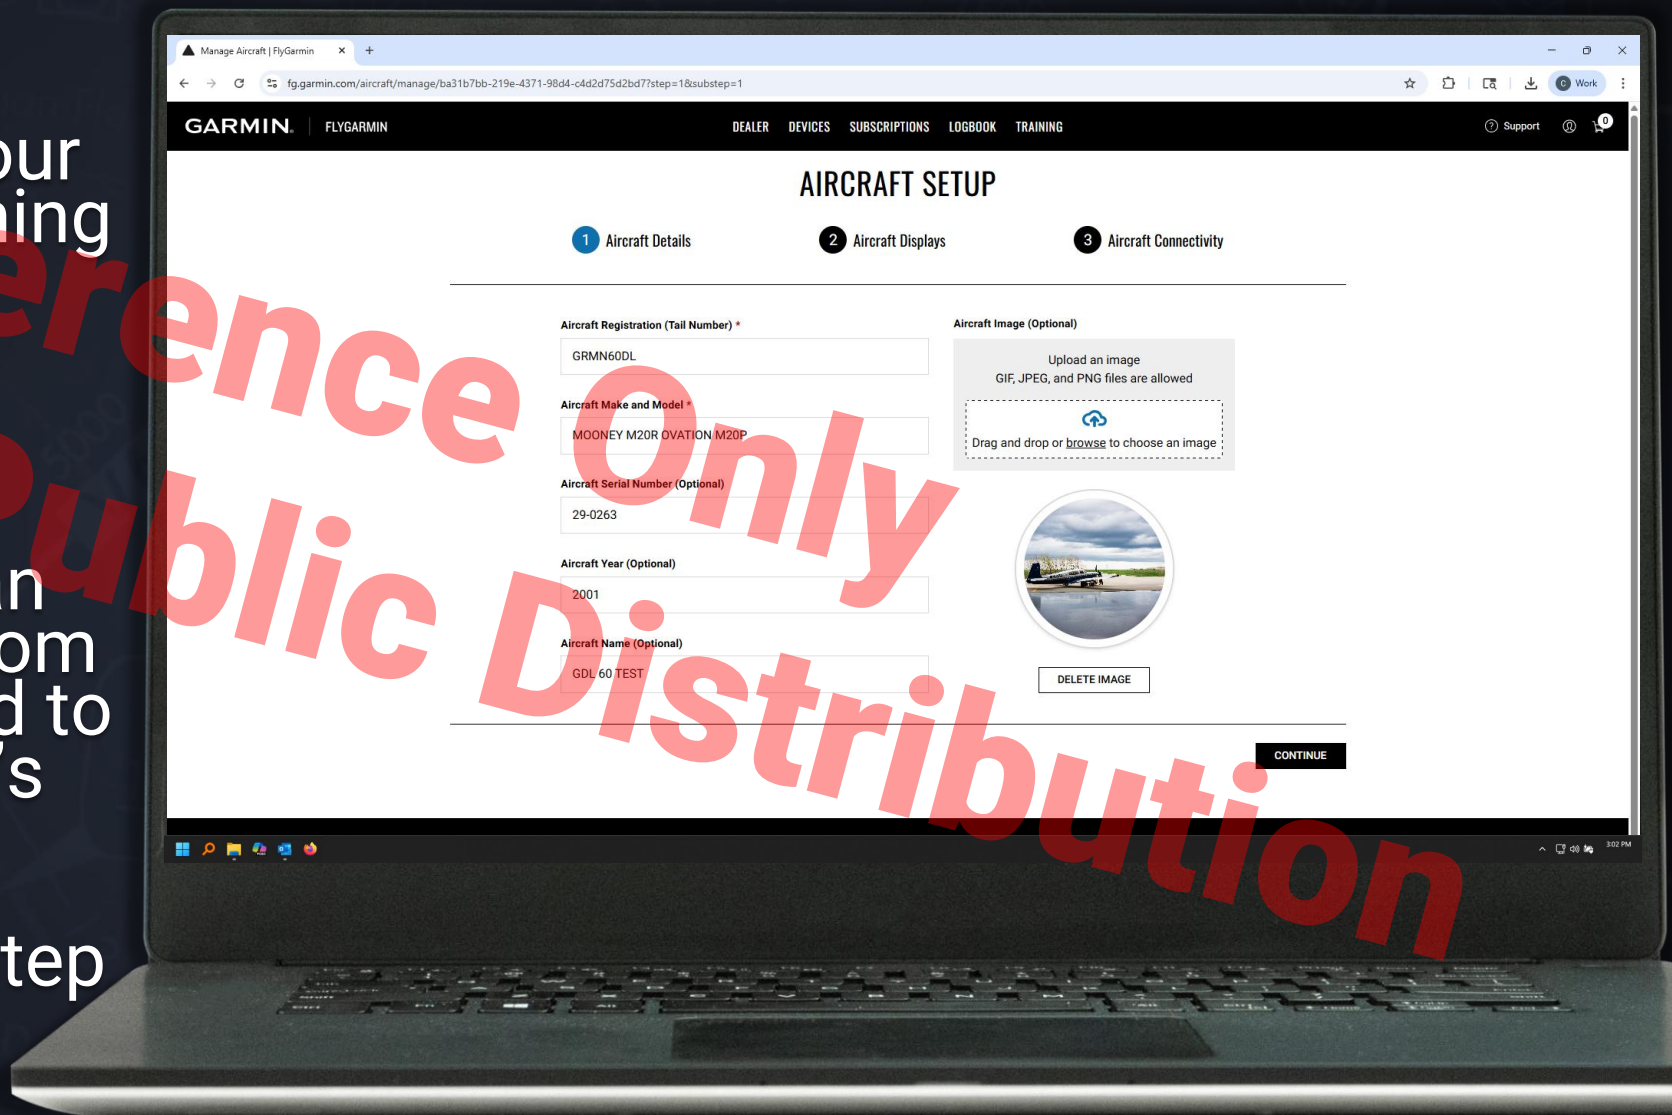

Objectives

Monday, March 30, 2026

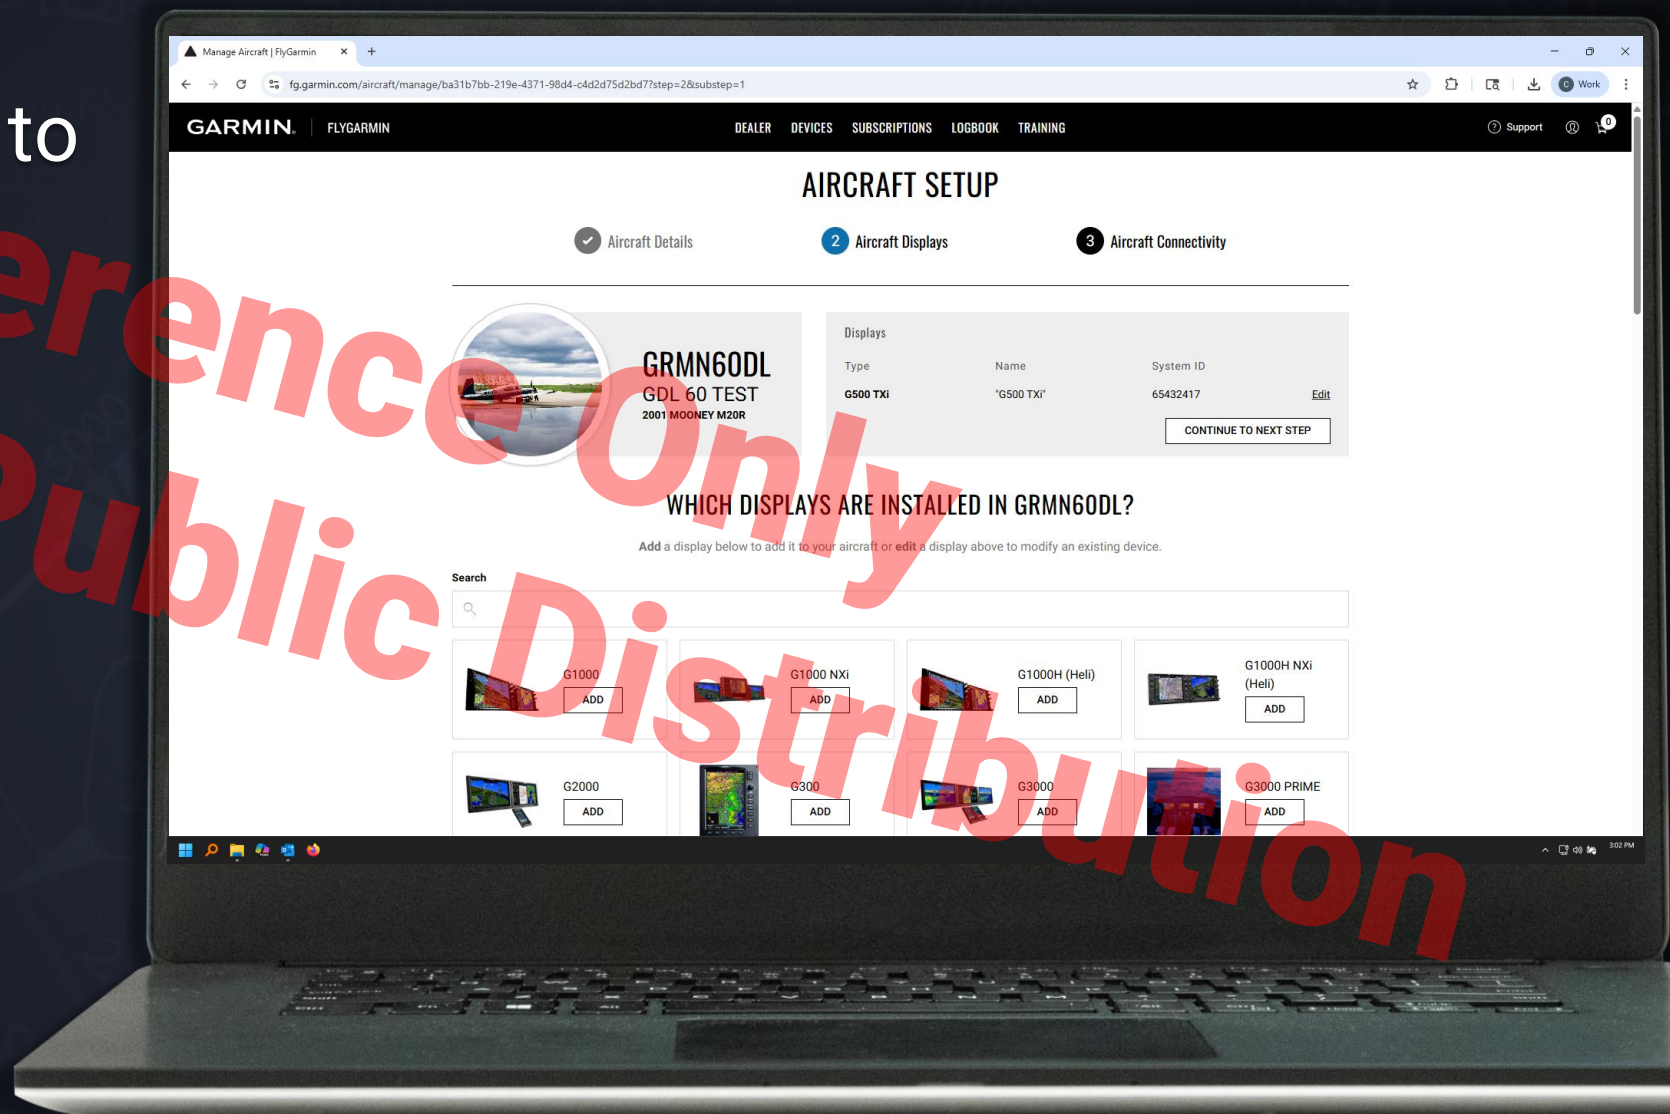

- ✈ After completing this section, you will:
 - ✈ Understand the breakdown of Garmin's GFC 500 Model Specific Addendums for Autopilot Installation.
 - ✈ Better articulate the common faults as presented by the notes and advice by Garmin Autopilot Subject Matter Experts.
 - ✈ Identify work processes for better installation experiences.

✈️ Step 1: Establish an account for your customer or assist your customer in establishing a Fly.Garmin.com account. (This is mandatory)

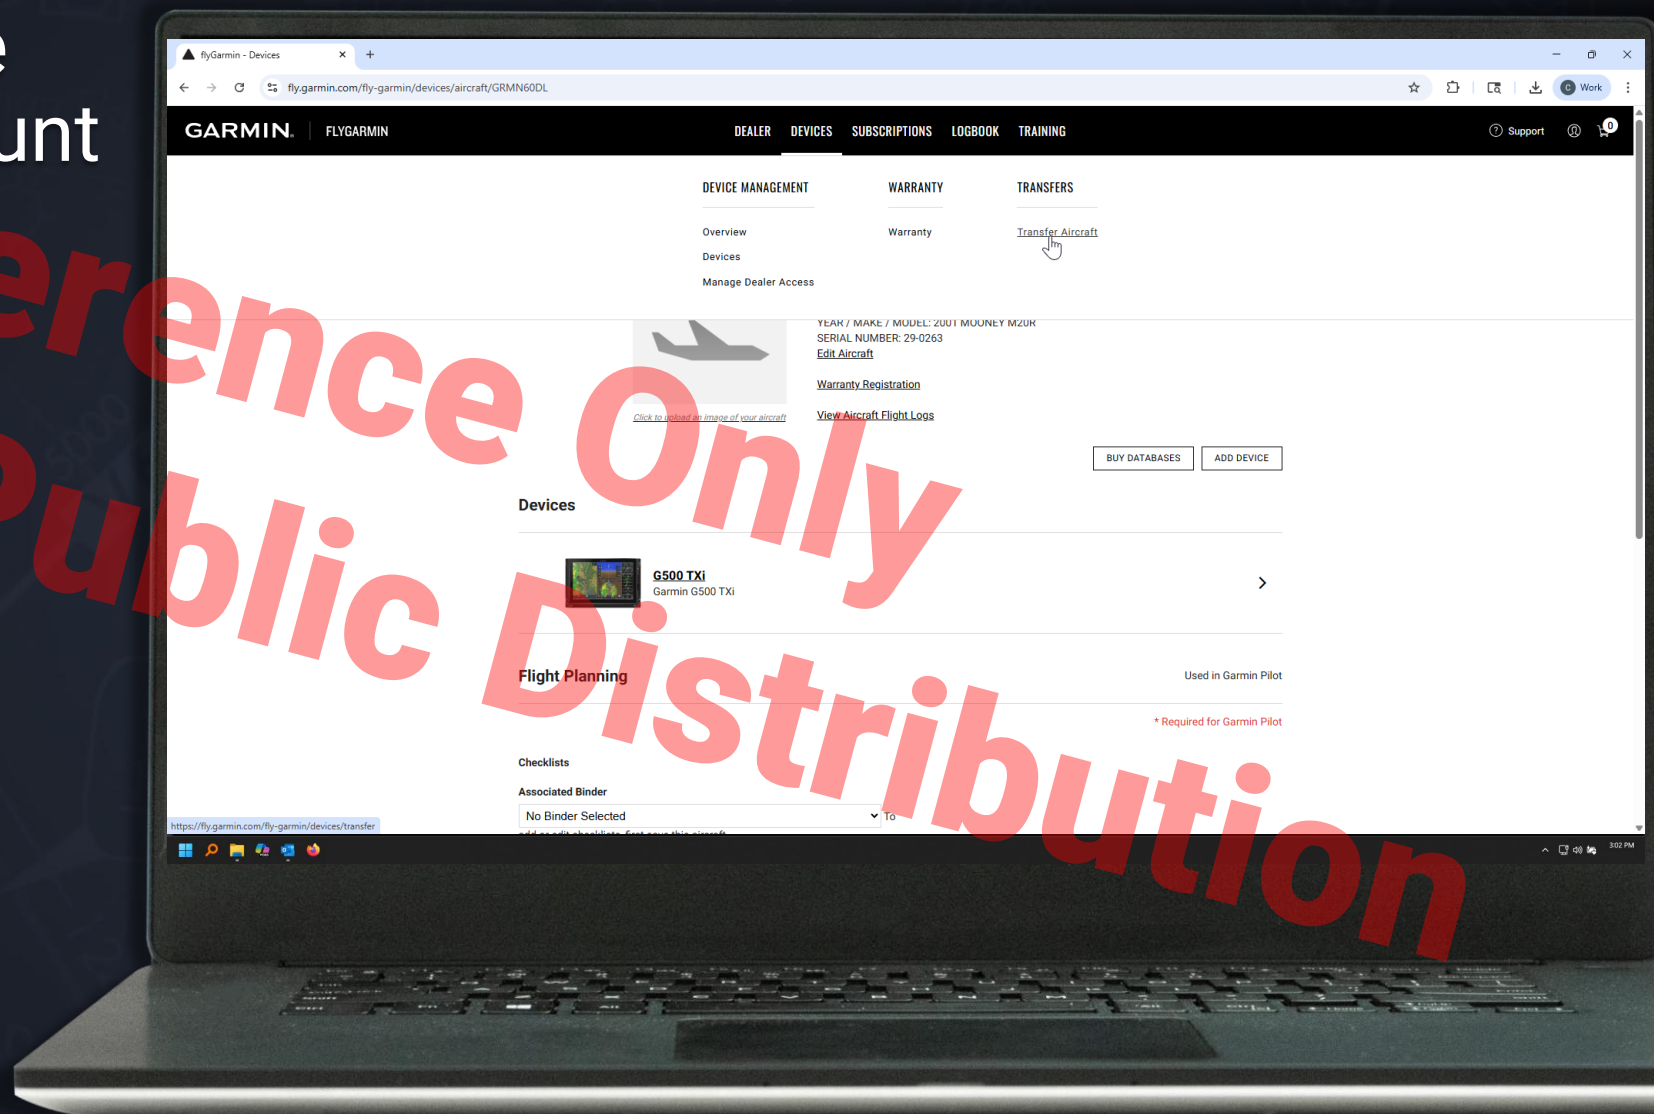

✈️ If the customer has an existing Fly.Garmin.com account, you will need to access the customer's account to add the newly installed equipment. (Skip to step 4).

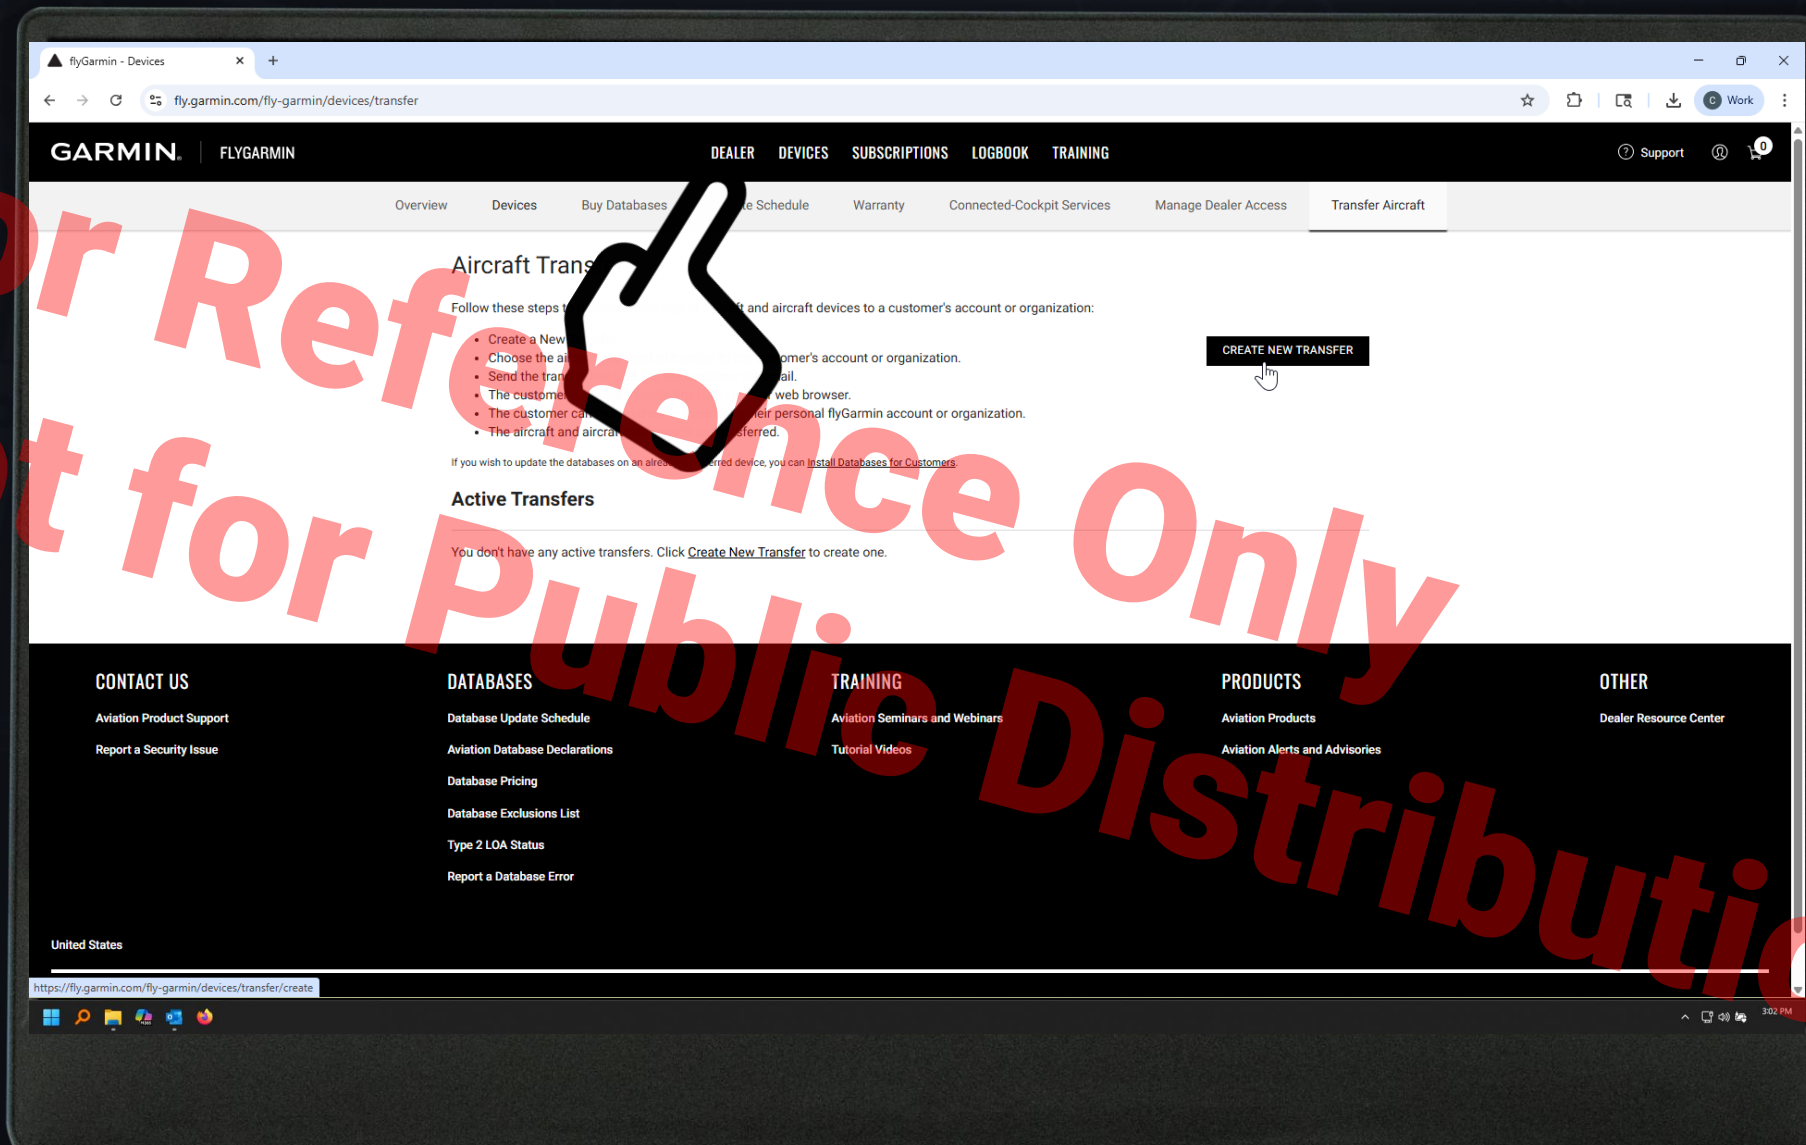

✈️ **Step 2: Add your customers' devices to the newly created account**

✈️ **Step 3:** Transfer the newly created account to the customer

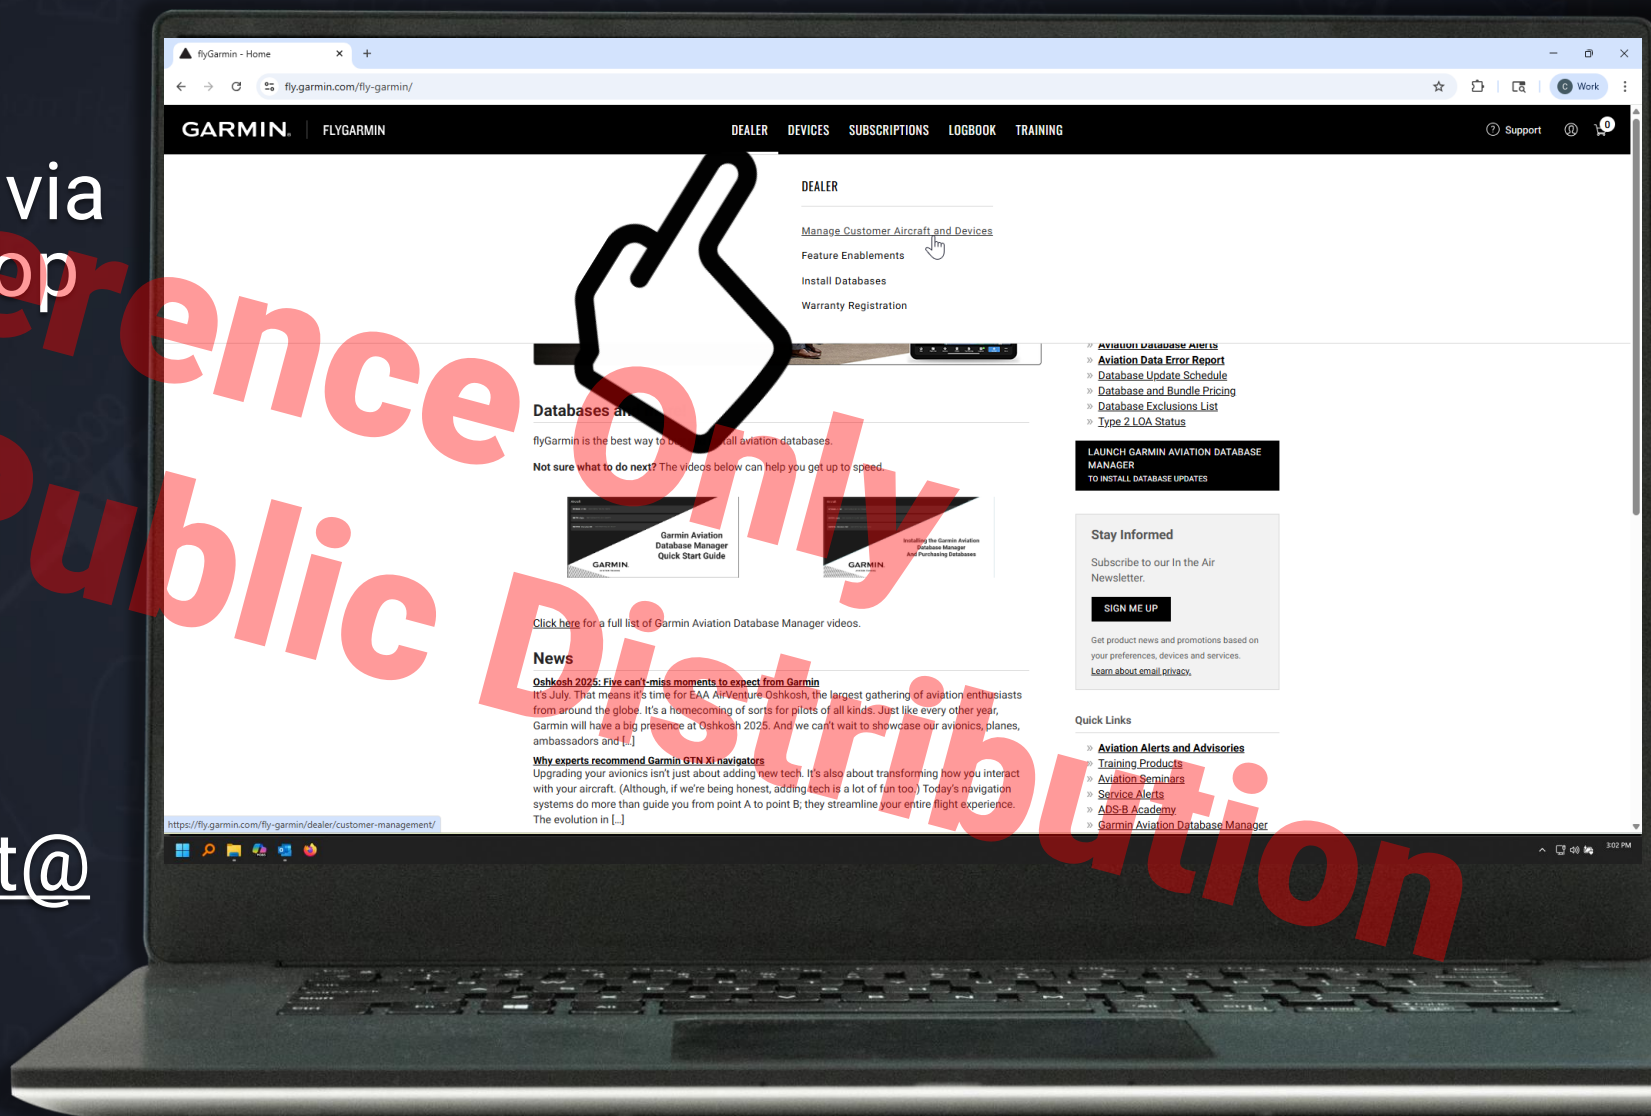

✈️ **Step 4: Request access to the customers account via the Dealer Tab -> drop down -> Manage Customer Aircraft**

✈️ **Must be granted Dealer Status in FlyGarmin**

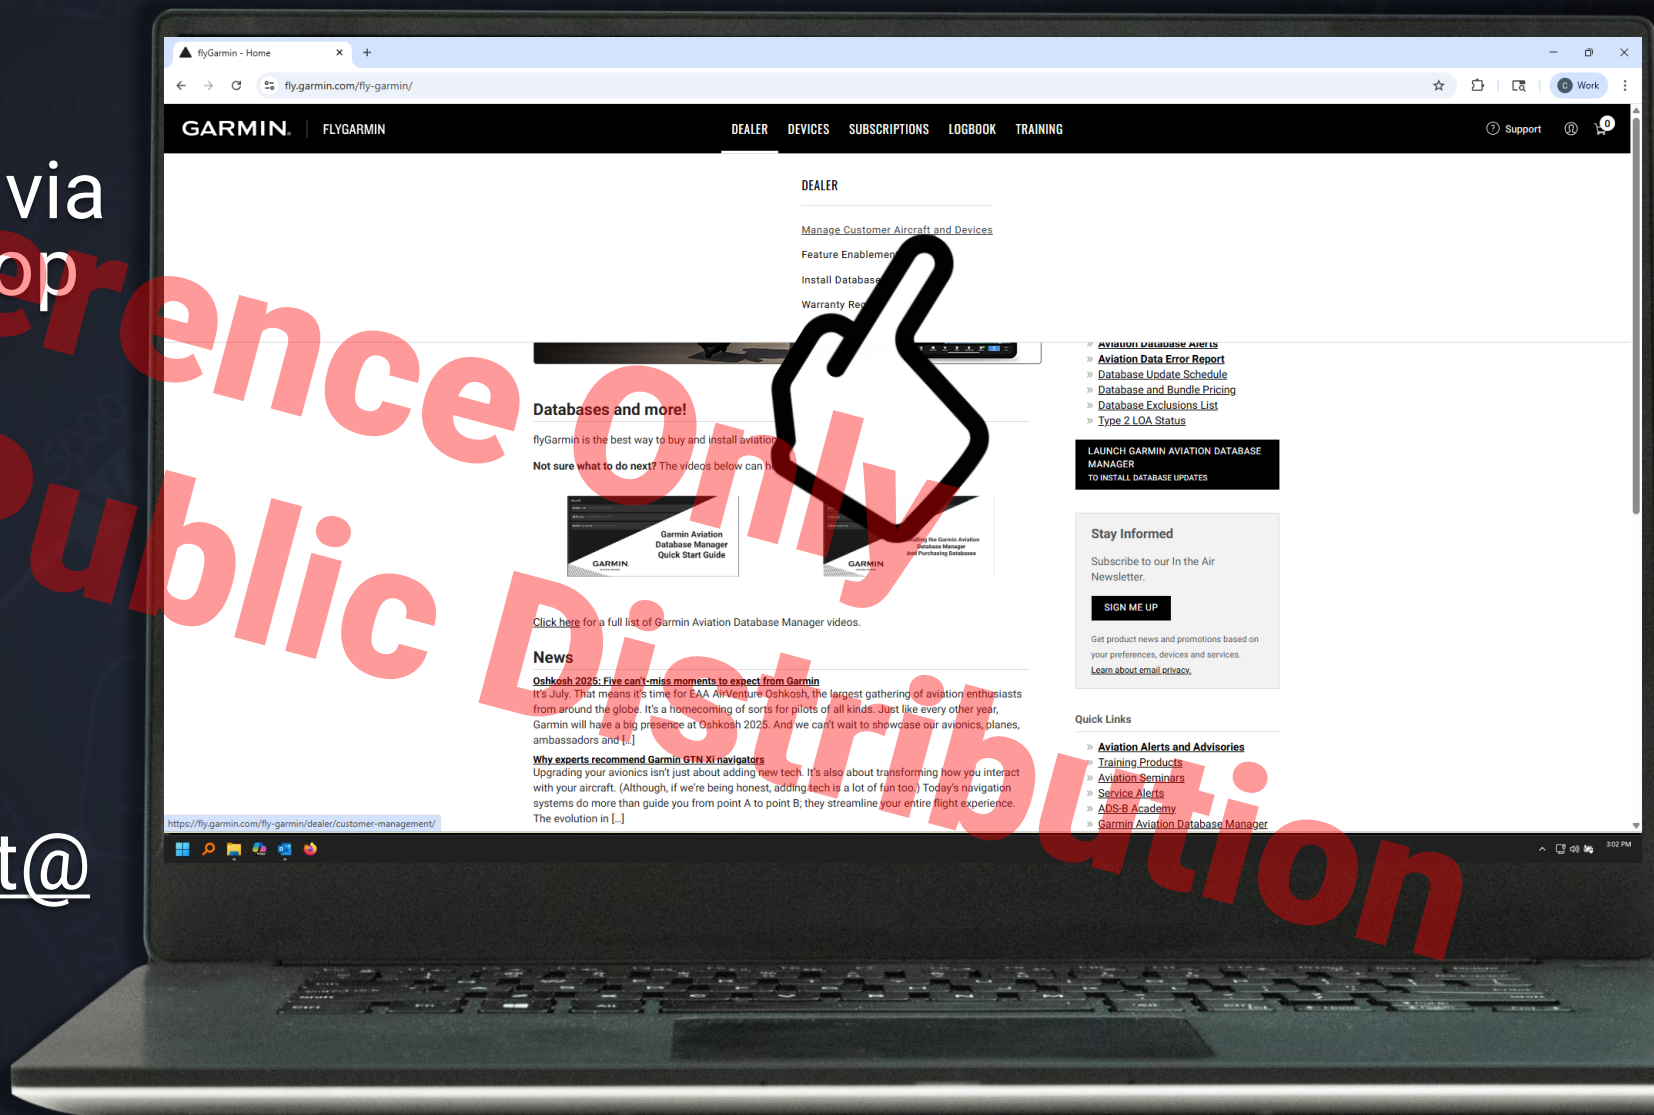

✈️ **DealerApps.Support@Garmin.com**

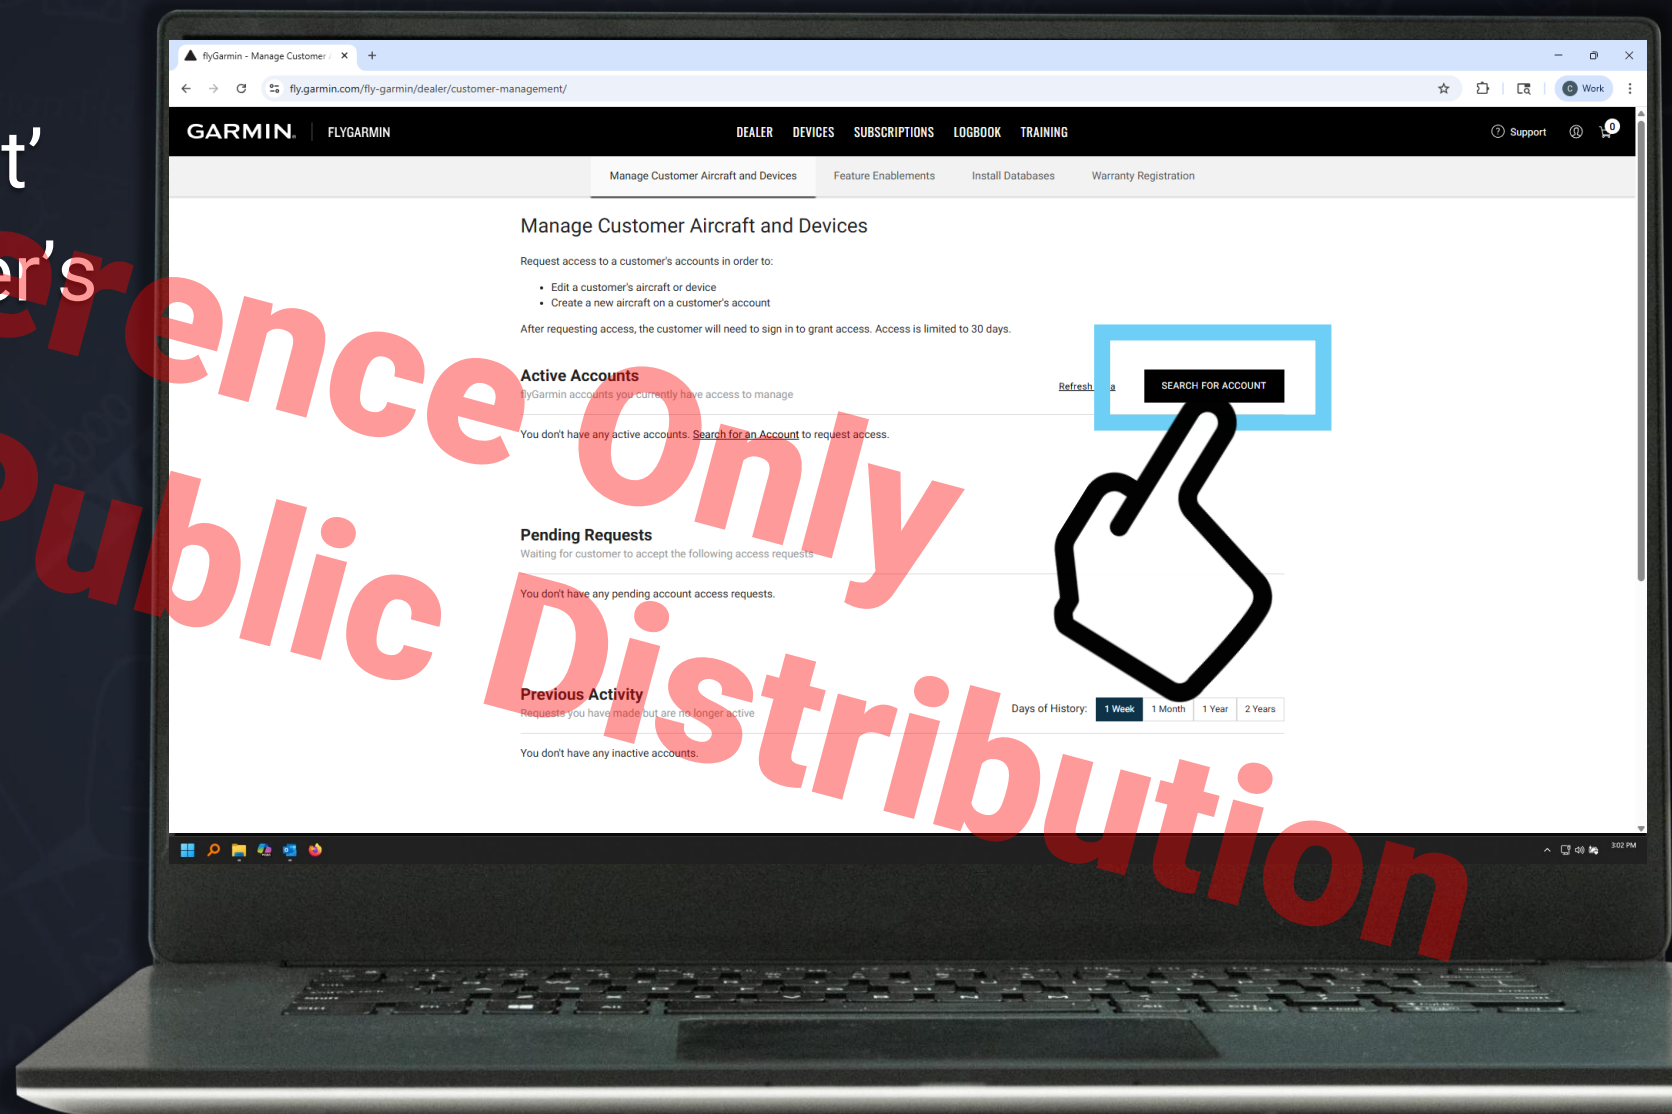

✈️ **Step 4: Request access to the customers account via the Dealer Tab -> drop down -> Manage Customer Aircraft**

✈️ **Must be granted Dealer Status in FlyGarmin**

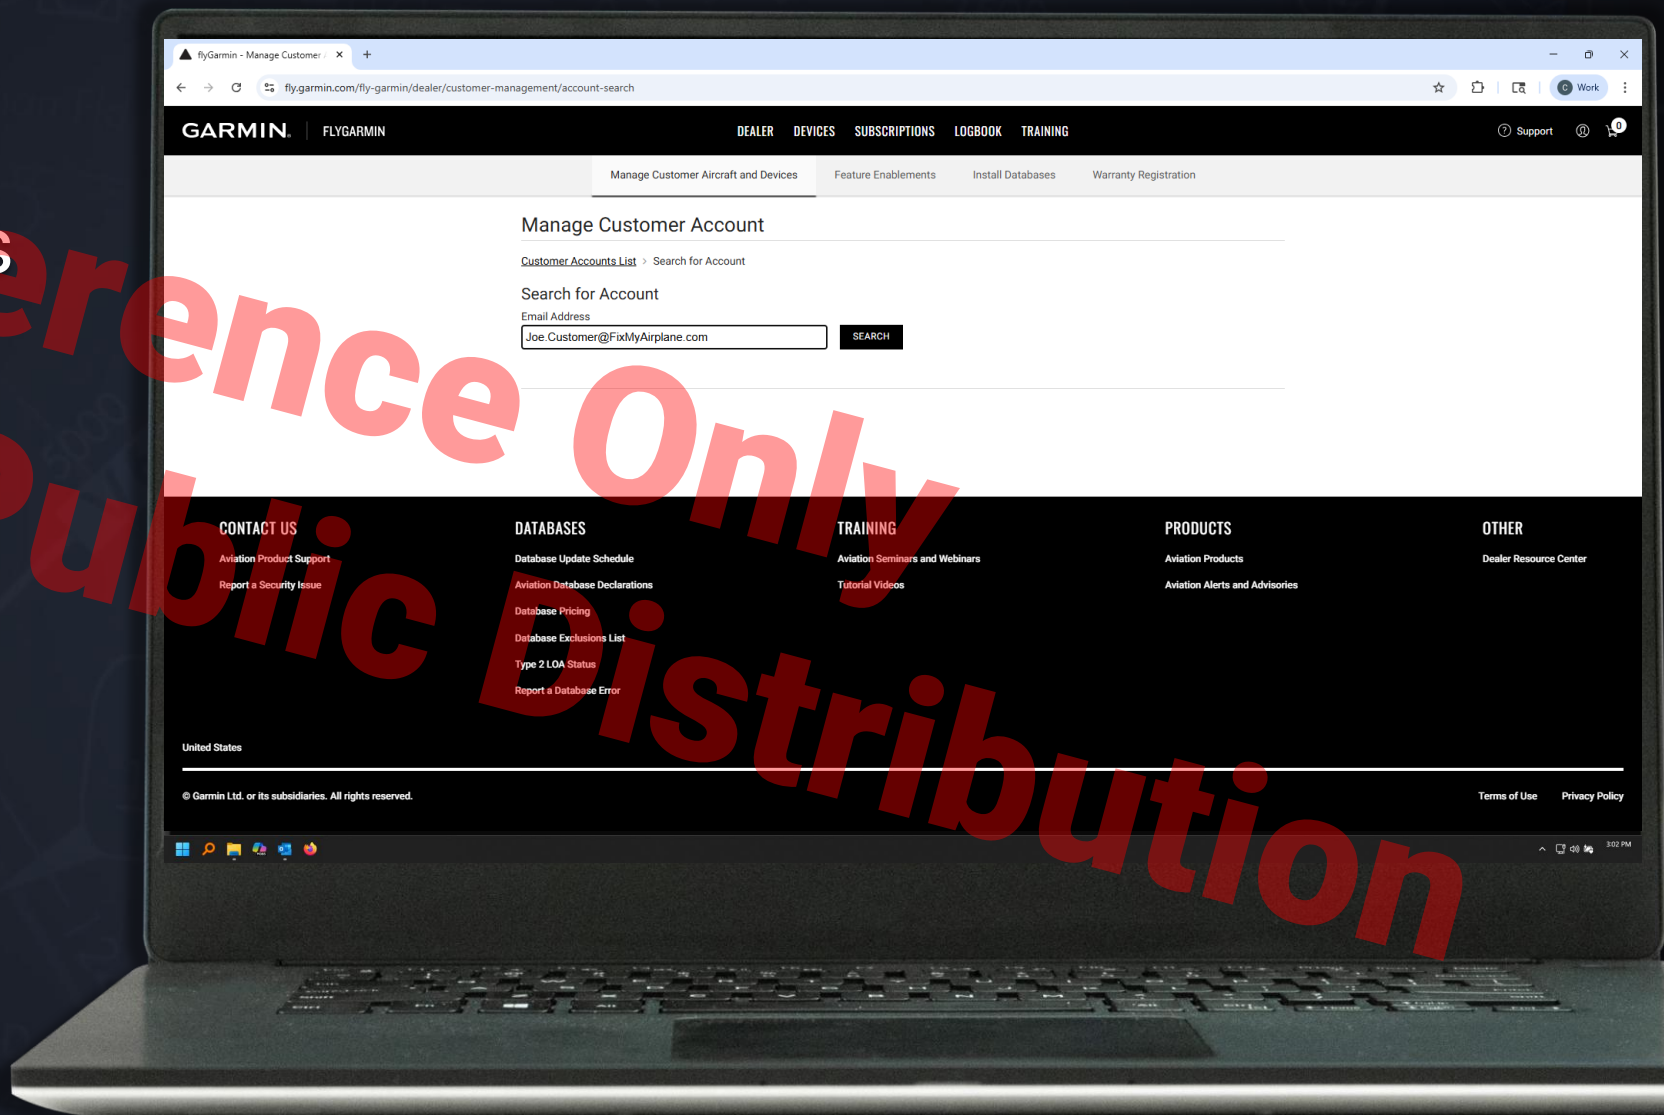

✈️ **DealerApps.Support@Garmin.com**

- ✈ Tap
- ✈ 'Search For Account'
- ✈ to find the Customer's FlyGarmin Account and ask for access.

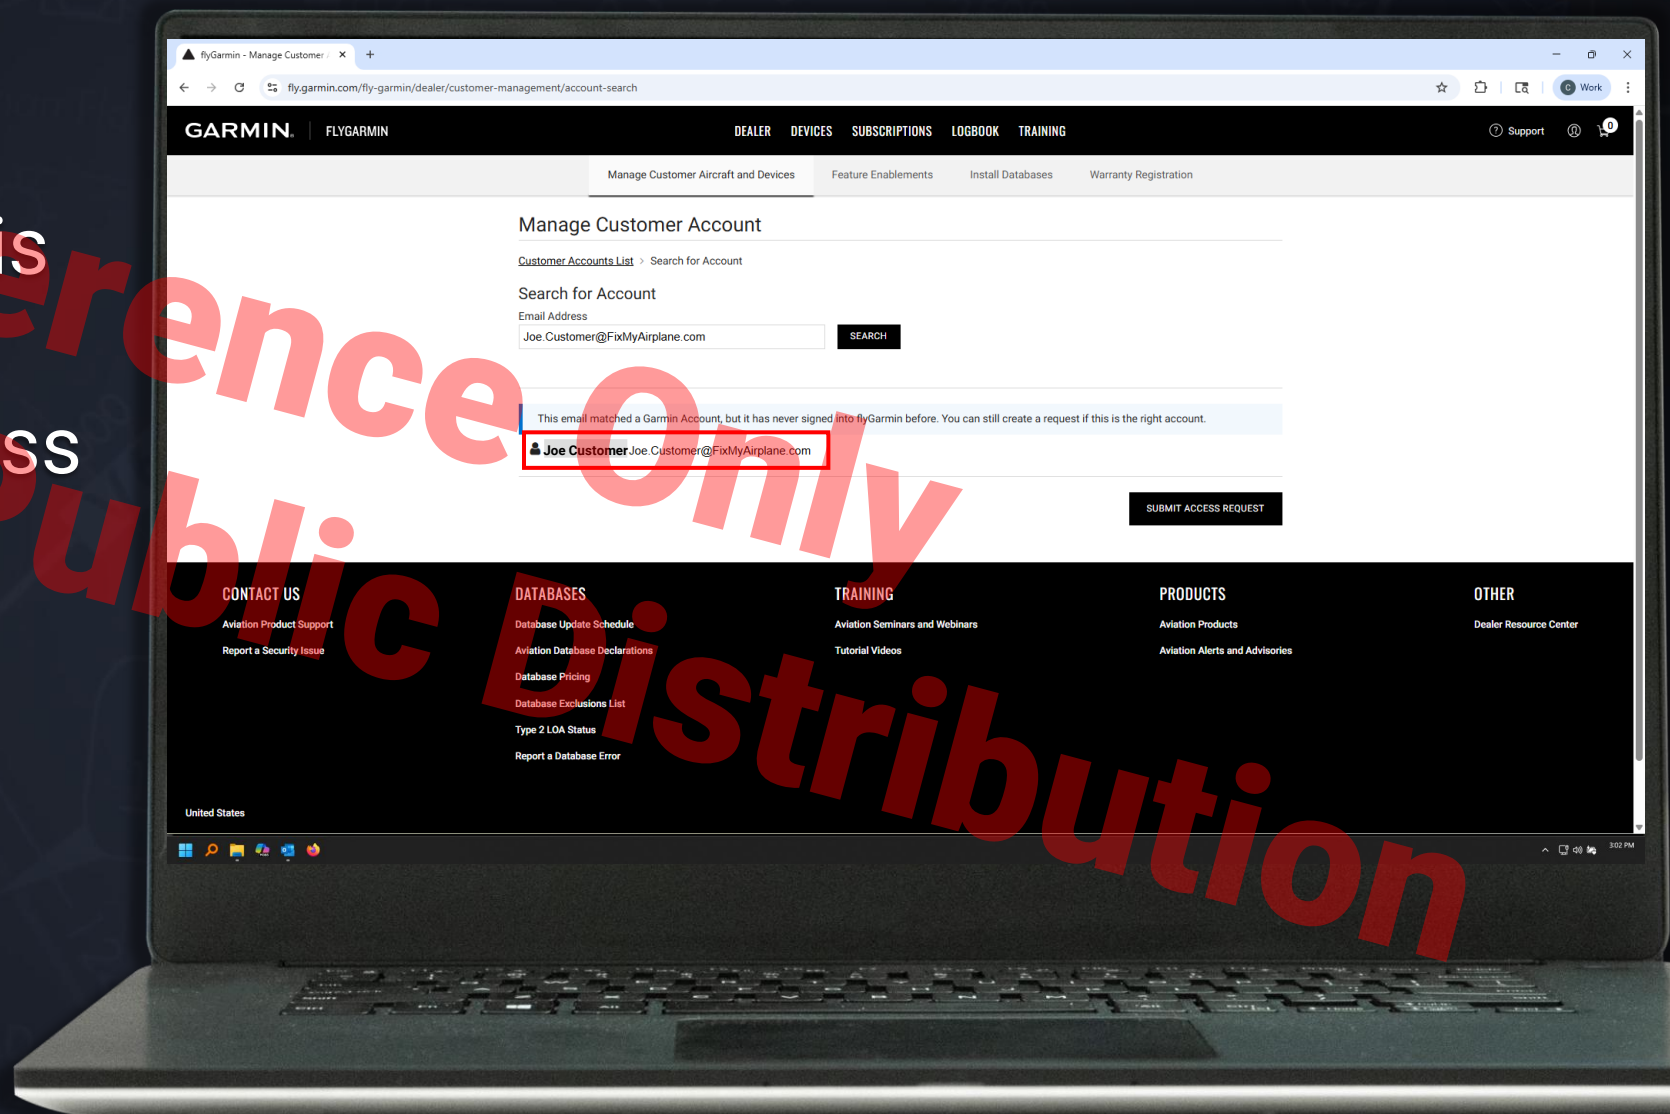

- ✈ From Dealer Tab:
- ✈ Manage Customer Aircraft and Devices
- ✈ Search for the customers' account using their email address.

✈️ Select Search

✈️ The customer's FlyGarmin account is found.

✈️ Select Submit Access Request

flyGarmin - Manage Customer / x +

ADD DEVICE

Connected-Cockpit Devices

	GDL 60	Remove this device	ACTIVATE GDL 60
---	--------	------------------------------------	------------------------

Devices

When Activate is selected you will be asked if the system is capable of RAS (Remote Aircraft Status). Select Yes or No and continue

Remote Aircraft Status Capable

Is this GDL 60 capable of Remote Aircraft Status functionality?

Remote Aircraft Status allows a user to make a realtime request for aircraft status information from any location.

This capability typically requires special wiring and configuration of the avionics.

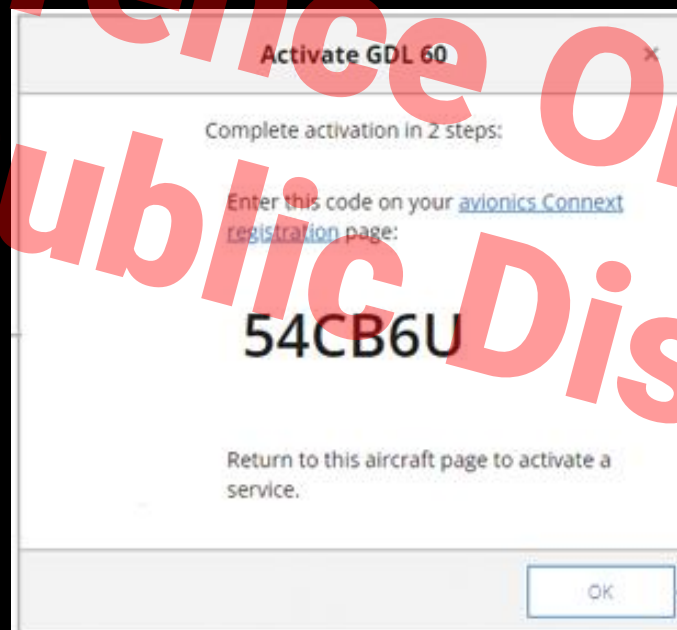

Please confirm with your GDL 60 installation technician before proceeding.

✓ Yes, this GDL 60 is capable of Remote Aircraft Status

No, this GDL 60 is not capable of Remote Aircraft Status

CONTINUE

Once you select continue the system will reciprocate with a one-time code to enter into the avionics (GTN Xi)

✈️ Ensure the Avionics has an established internet connection under GTN Xi – System - Connex Setup - Networks & Pairing

✈️ Home -> System:

✈ Ensure the Avionics has an established internet connection under GTN Xi – System - Connex Setup - Networks & Pairing

✈ Home -> System:

✈ Connex Setup:

✈ Ensure the Avionics has an established internet connection under GTN Xi:

✈ Home -> System:

✈ Connex Setup:

✈ Networks & Pairing

- ✈ Make sure that external WiFi is available (LTE optional) it's enabled and connected:

- ✈️ Return to the registration selection and once available select One-time code and enter your code

- ✈️ Return to the registration selection and once available select One-time code and enter your code

✈ Once registered, the system will show "Registered" status...

✈ The GDL 60 is now registered and ready for trial services

NOTES

✈️ Additional Resources

✈️ **GDL 60-GTN Xi Registration & Activation Guide**
and several articles at support.garmin.com

✈️ **Dealer Training Academy** several videos
covering GTN Xi user operation and PlaneSync.

NOTES

Final Note

 Software, when updating devices interfaced to the GDL 60 (i.e. GTN Xi) verify per the Master Drawing List the GDL 60 required software.

 It is NOT always covered by the supporting device software bulletin.

Summary

Monday, March 30, 2026

- ✈ We've reviewed FlyGarmin and the process for adding new users
- ✈ Established the basic instructions for adding GDL 60 to our Customer's FlyGarmin Accounts
- ✈ We examined the 'Handshake' and how we can add and manage additional users to our FlyGarmin Accounts

Any Questions?

Thank You!

✈ Nick Wright

✈ Lead Aviation Maintenance Instructor

✈ Garmin Aviation Training

✈ Aviation.training@garmin.com
